

BHAVIK PATEL

Curriculum Vitae — Software Engineer (.NET Core | Full Stack Development)

Surat, Gujarat, India | +91-7486916749 | patel021299@gmail.com

LinkedIn: linkedin.com/in/patelbhavik021299 | GitHub: github.com/bhavikpatel9

PROFESSIONAL SUMMARY

Software Engineer with 3.5+ years of experience designing, developing, and maintaining scalable web applications and REST APIs using .NET Core, C#, and SQL databases. Delivered 15+ production applications across enterprise and government clients, including a SaaS attendance product and large-scale e-governance platforms serving thousands of users. Skilled in full software development life cycle (SDLC), API development, database design, debugging, and cross-functional collaboration. Led a team on an open-source platform migration project and consistently shipped modules ahead of deadlines. Seeking to build high-impact products in a fast-paced product/SaaS environment.

CORE COMPETENCIES

REST API Development | Full Stack Web Development | Database Design & Optimization | SaaS Product Development | Agile & Scrum | SDLC & Requirement Gathering | Debugging & Performance Troubleshooting | Team Leadership | Vulnerability Assessment (VAPT) | Project Architecture

TECHNICAL SKILLS

Programming Languages: C#, Python, PHP, JavaScript, HTML5, CSS3, VBScript

Frameworks & Libraries: .NET Core, .NET Framework, ASP.NET Web API, FastAPI, CodeIgniter 3, Bootstrap

Databases: MS SQL Server, MySQL, PostgreSQL

Reporting: RDLC, SSRS

AI/ML: Generative AI, Machine Learning with Python (foundational)

Tools & Platforms: Git, GitHub, Azure DevOps Boards, Wireshark, Nmap, Google Analytics, Facebook Pixel, Hostinger, GoDaddy

Practices: Agile, Scrum, Project Management, Code Review, Unit & Integration Testing

PROFESSIONAL EXPERIENCE

Software Developer — Silver Touch Technologies Ltd., Surat May 2025 – Present

Client: Surat Municipal Corporation (SMC) — e-Governance

- Develop and implement software solutions for Surat Municipal Corporation, streamlining civic processes and improving operational efficiency across departments.
- Gather and analyze requirements directly with SMC stakeholders to translate business needs into technical specifications.
- Design, code, test, and debug .NET-based applications tailored to municipal workflows and compliance requirements.
- Collaborate with cross-functional teams to integrate new modules into existing legacy systems with zero disruption to live services.
- Provide ongoing production support, resolving reported bugs and issues promptly to maintain application uptime.

Software Developer — Ethos HR Management and Projects Pvt. Ltd. Sep 2023 – Apr 2025

Client: Gujarat Info Petro Limited (GIPL) — Government & Enterprise Applications

- Delivered 12+ web applications and modules for Gujarat state government bodies using .NET Core, Web API, and SQL Server, serving statewide user bases.
- **Led a team** to recreate the CRD-EMS employee management system on an open-source stack, reducing licensing dependency and modernizing the platform.
- Built Sampark4GenX, a SaaS attendance management product, contributing to architecture, API development, and database design.
- Developed the School Selection Module for SSA GyanSahayak Teacher Recruitment and COS Old Teacher systems, enabling large-scale statewide teacher allocation.
- Enhanced VNSGU E-Filing by fixing critical bugs and designing a new File Review module, improving document workflow efficiency for university administration.
- Revamped the AUDA website and delivered the GARC, Home Department, GIPL, and BSF-Bootcamp websites, improving usability and maintainability.

- Maintained and optimized HRMS, Gujsail Inventory, GEMERS CMS, and Commissioner of Fisheries applications through bug fixes and feature modifications.

IT Consultant / Web Application Developer — Sumantra Strategies Pvt. Ltd. Oct 2022 – Aug 2023

- Owned the full SDLC — requirement gathering, design, development, and deployment — delivering client projects ahead of committed timelines.
- Built and maintained responsive websites using PHP (CodeIgniter 3), HTML, CSS, JavaScript, and MySQL, including JBGO (jbgo.biz) and Altavista Homes (altavistahomes.in).
- Designed user interfaces and navigation flows, improving user experience and reducing reported usability issues.
- Managed hosting, domains, and deployments on Hostinger and GoDaddy, ensuring reliable uptime for client sites.
- Implemented Google Analytics and Facebook Pixel tracking, enabling data-driven marketing decisions for clients.
- Troubleshoot performance and UX issues across projects and managed clients' social media presence.

INTERNSHIPS

Cybersecurity Intern (Part-Time) — WhizHack Technologies Feb 2023 – Apr 2023

- Executed VAPT projects covering SQL injection and cross-site scripting (XSS); completed CTF challenges and researched network tools including Wireshark, Nmap, and Bettercap.

Software Development Intern — Anand Systems Inc. Feb 2022 – Jul 2022

- Contributed to development, integration, and testing of the Hotel Motel Software product using .NET Framework, VBScript, and MS SQL Server.

KEY PROJECTS

- **Sampark4GenX (SaaS Attendance System):** Multi-tenant SaaS product for attendance management. Contributed to API development and database design. Tech: .NET Core, Web API, SQL Server.
- **CRD-EMS Open-Source Migration (Team Lead):** Led recreation of an employee management system on an open-source stack, cutting licensing costs and improving maintainability.
- **SSA GyanSahayak Teacher Recruitment:** Built the School Selection Module for Gujarat's statewide primary-school teacher recruitment platform, supporting high-volume concurrent selections.
- **VNSGU E-Filing:** Designed and shipped a new File Review module and resolved critical defects for the university's digital filing system.
- **Surat Municipal Corporation Platform:** Ongoing development of civic e-governance applications for one of India's largest municipal corporations.
- **AUDA Website Revamp:** Modernized the Ahmedabad Urban Development Authority website for improved performance and usability.
- **Additional Ethos HR / GIPL projects:** Gujsail Inventory, GEMERS CMS, HRMS (bug fixing & modification), GIPL company website, BSF-Bootcamp website, Commissioner of Fisheries (bug fix & modification), COS Old Teacher (School Selection Module), Home Department website, GARC website (Gujarat Administrative Commission).
- **Sumantra Strategies client projects:** JBGO (jbgo.biz) — Quick Connect platform; Altavista Homes (altavistahomes.in) — full project management and hosting.
- **Anand Systems (Internship):** Hotel Motel Software — development, integration, and testing using .NET Framework, VBScript, MS SQL Server.

EDUCATION

Master of Computer Applications (MCA) — Veer Narmad South Gujarat University 2019 – 2022

Bachelor of Computer Applications (BCA) — UCCC & SPBCBA & SDHGCBCA & IT College 2016 – 2019

HSC — Ld High School (Gujarat Secondary & Higher Secondary Education Board) 2015 – 2016

SSC — Sir C.J. Navsari Zarhosti Madresa High School (GSHSEB) 2013 – 2014

CERTIFICATIONS

- Scrum Certification + Scrum Master + Agile Scrum Training
- Azure DevOps Boards
- Cyber Samurai Program in Cyber Defense — WhizHack, IIT Jodhpur TISC
- Cyber Guru Program in Cyber Defense — WhizHack, IIT Jodhpur TISC
- Practical Web Apps Hacking (7-Day Bootcamp)

- Machine Learning with Python
- Python 101 for Data Science
- Gen AI Academy
- AI For India 2.0
- SaWiT.AI Challenge
- Challenge: Space Mission
- Mastering DevOps Webinar
- Project Completion Certificate — Anand Systems, India (Internship)
- AI for Bharat Hackathon — Participant (Hack2Skill, powered by AWS; media partner: YourStory)

ACHIEVEMENTS

- Selected as team lead for the CRD-EMS open-source migration within first year at Ethos HR.
- Progressed from IT consulting to enterprise government development within one year of starting professional career.
- Consistently delivered client projects before committed deadlines at Sumantra Strategies.

LANGUAGES

English (Professional), Hindi (Fluent), Gujarati (Native)
